

Workshop Schedule

Friday April 13, 2007

Time	Crystal Room
7:00 PM – 10:00 PM	Presenter Mixer
8:30 PM – 10:00 PM	Group past Life Regression

Saturday April 14, 2007

Time	Diamond Room	Emerald Room
7:00 AM - 8:00 AM	Registration Time	Registration Time
8:00 AM - 9:00 AM	Tao of Ghost Hunting, Wilson	Ghost 101, Shaw/Salatino
9:00 AM -10:00 AM	Infrared Basics, Hawthorne	Ghost 101, Shaw/Salatino
10:00 AM -11:00 AM	Spirit Photography, Bailey	Introduction to EVP, Claud
11:00 AM – Noon	Dowsing For Spirits, Oneske	R&D in the Paranormal, Claud
<i>Noon – 1:30 PM</i>	<i>LUNCH</i>	<i>LUNCH</i>
1:30 PM – 3:00 PM	Critiquing Evidence, Forum Discussion	Ghost Hunting Ethics, Shaw
3:00 PM – 4:00 PM	Video Surveillance, Bailey	Hauntings of Western New York, Zimmerman
4:00 PM – 5:00 PM	Investigating Cemeteries, Bartlett	Possessed Possessions, Forum Discussion
7:00 PM – 9:00 PM	Table Tipping Experiment	Supernatural Genesee Presentation

Ghost Hunt 9:30 until midnight

Sunday April 15, 2007

Time	Diamond Room	Emerald Room
7:00 AM - 8:00 AM		
8:00 AM - 9:00 AM	Business of the Paranormal, Claud	Dangers of the Paranormal, Bartlett
9:00 AM -10:00 AM	Dead Presidents, Wilson	Paranormal Archeology, Kimmel
10:00 AM -11:00 AM	Psychic Detective, Reece	Orb Photography
11:00 AM – Noon	Statistics of a Haunting, Bailey	Uncovering The Demonic Realm, Cetrone
<i>Noon – 1:30 PM</i>	<i>LUNCH</i>	<i>LUNCH</i>
1:30 PM – 3:00 PM	Faith Vs. Science, Forum Discssion	EVP: Latest Techniques, Wilson
3:00 PM – 4:00 PM	Photographic Analysis, Esposito	Advanced Infrared Techniques, Hawthorne
4:00 PM – 5:00 PM	Ghost Science, Wilson	Improving Paranormal Investigation, Group

Workshop Descriptions

Saturday April 14, 2007

Class Name: Ghost Hunting 101

Class Instructor: Steve Salatino/Tim Shaw

Class Length: 2 hours

Class Synopsis: Learn the fundamentals of paranormal investigation from the Victorian era investigators to the modern technology of today. These instructors will explore the uses of various tools from the past to modern times and how they can be best utilized in today's investigative environment. Discuss the history of investigation, proper protocols, tools to use and more!

Class Time: 8:00 AM – 10:00 AM

Location: Emerald Room

Class Name: The Tao of Ghost Hunting

Class Instructor: Vince Wilson

Class Length: 1 hour

Class Synopsis: Vince Wilson will discuss how to keep your ghost hunting team successful and professional. In addition, he will discuss the most commonly misused pieces of equipment and what many ghost hunters do wrong on an investigation.

Class Time: 8:00 AM – 9:00 AM

Location: Diamond Room

Class Name: Infrared Basics and Fundamentals

Class Instructor: Jeremy Hawthorne

Class Length: approx. 1 hour

Class Synopsis: The class will consist of a discussion of what Infrared is, what wave lengths are, what light is and what light is made up of, as well as other basic terms and fundamental terms. Also, what the Electromagnetic Spectrum is as a whole. What the Electromagnetic Spectrum is made up of and how it applies to paranormal research. We will also discuss the different types of Infrared and how it is measured. Handouts will be provided with definitions and terms to help students through the material covered.

Class Time: 9:00 AM – 10:00 AM

Location: Diamond Room

Class Name: Spirit Photography

Class Instructor: Christopher Bailey

Class Length: 1 hour

Class Synopsis: Since the 19th century, never has spirit photography been as popular as it is today. From the amateur ghost hunter to the professional paranormal investigator, more people are looking to prove the continuance of life after death through the lens of a camera. Spirit photography is considered to be a form of mediumship or spirit communication in which the ghost or entity makes contact with the physical world by leaving an image on a photographic plate or digital image. Though this may be a fun hobby to some, or part of a trade to others, it is always important to understand your equipment and its proper use. This is the best way to be sure to gather clear documentation and avoid false positives.

Class Time: 10:00 AM – 11:00 AM

Location: Diamond Room

Class Name: Introduction to EVP

Class Instructor: Dwayne Claud

Class Length: 1 hour

Class Synopsis: This workshop dives into the recording of electronic voice phenomenon for the beginning to intermediate paranormal investigators. Learn what equipment can be utilized for the best recordings, learn some basic tricks and techniques for recording, some basic evaluation criteria and even how to make them sound clearer. This workshop lies a strong foundation for EVP Research.

Class Time: 10:00 AM – 11:00 AM

Location: Emerald Room

Class Name: Dowsing for Spirits

Class Instructor: Jenni Oneske

Class Length: 1 hour

Class Synopsis: One of the first tools used in paranormal research where those for dowsing. Pendulums, compasses, and diving rods are among a few of the favorite tools to be used. Join Jenni Oneske as she explains the history and belief behind how dowsing works, and its importance in a paranormal investigations. See demonstrations and become an active participant.

Class Time: 11:00 AM - Noon

Location: Emerald Room

Class Name: Research and Development: New Tools and Techniques For The Investigator

Class Instructor: Rich Eider

Class Length: 1 hour

Class Synopsis: You'll discover new techniques and tools to make paranormal investigation easier and more credible. Discover how to reduce the amount of dust in video and photography, which lights are better to use in the dark, how can mist be controlled in a photograph and the list goes on. This workshop is full of the latest tested ideas and tricks to make paranormal investigation easier.

Class Time: 11:00 AM - Noon

Location: Diamond Room

Class Name: Critiquing Evidence: Forum Discussion

Class Instructor: Various

Class Length: 1 hour

Class Synopsis: An open forum discussion between instructors and the audience. See controversial evidence that has been presented...ask questions...pose suggestions...and perhaps we can all find a better help to help each other.

Class Time: 1:30 PM – 3:00 PM

Location: Diamond Room

Class Name: Ghost Hunting Ethics

Class Instructor: Tim Shaw

Class Length: 1 hour

Class Synopsis: Paranormal investigating can be interesting and it can be fun. There are, however, many ethical questions we have to ask ourselves in conducting such work. Tim Shaw examines the question of ethics when dealing with spirit and also with those living in the home. These ethical questions are something that many teams overlook but are essential to the thriving field of paranormal research.

Class Time: 1:30 PM – 3:00 PM

Location: Emerald Room

Class Name: Video Surveillance Technique for the Paranormal World

Class Instructor: Chris Bailey

Class Length: 1 hour

Class Synopsis: The wandering camera man is the most commonly used video technique in paranormal research; even though it has very little chance for true success of capturing conclusive evidence. It is still an effective tool for investigations, but there is one better. Chris Bailey explores the use and success they have had with using video surveillance Technology in paranormal investigation.

Class Time: 3:00 PM – 4:00 PM

Location: Diamond Room

Class Name: Hauntings of Western New York

Class Instructor: Linda Zimmerman

Class Length: 1 Hour

Class Synopsis: Join author Linda Zimmerman as she presents an exciting lecture on legends and lures of New York State with her own personal investigations. The cases include private homes, historic sites, and restaurants that have provided fascinating evidence that can be linked to actual documented events.

Class Time: 3:00 PM - 4:00 PM

Location: Emerald Room

Class Name: Possessed Possessions

Class Instructor: Various

Class Length: 1 hour

Class Synopsis: Why do spirits attach themselves to objects? Can residual energy be present as well as interactive spirits? Will they continue to follow the object forever or will they simply let go? What have been the experiences of the experts sitting in on this panel discussion? In this session, the audience guides the questions as the experts provide their own opinions.

Class Time: 4:00 PM – 5:00 PM

Location: Emerald Room

Class Name: Investigating Cemeteries

Class Instructor: Derek Bartlett

Class Length: 1 hour

Class Synopsis: There are many things that one should take into consideration when investigating alleged haunted locations such as cemeteries, property and roadways. Based on over 7 years of field investigational experience, investigators will learn the basic skills of tactical environmental preparation, he will help investigators understand how to work in the field under adverse weather conditions, both to make it safe, fun and comfortable, as well as to maximize the effectiveness of observation and data collection.

Class Time: 4:00 – 5:00 PM

Location: Diamond Room

Sunday April 15, 2007

Class Name: Business of the Paranormal

Class Instructor: Dwayne Claud

Class Length: 1 hour

Class Synopsis: Starting a paranormal organization can be an overwhelming task. How do we find cases? Where do new members come from and how do we sort them out? To become a 501c(3) Non-Profit or not? These are just the beginnings to all the questions that come up. Join Dwayne Claud as he explores the business of the paranormal in this informative session.

Class Time: 8:00 AM – 9:00 AM

Location: Diamond Room

Class Name: Dangers of the Paranormal

Class Instructor: Derek Bartlett

Class Length: 1 hour

Class Synopsis: There are many things that one should take into consideration when investigating alleged haunted locations such as cemeteries, property and roadways. Based on over 7 years of field investigational experience, Derek Bartlett has put his military experience to good use in leading his team into the deepest swamp areas of New England in search of the paranormal. Starting with teaching the basic skills of tactical environmental preparation, he will help investigators understand how to work in the field under adverse weather conditions, both to make it safe, fun and comfortable, as well as to maximize the effectiveness of observation and data collection. Derek's presentation will welcome audience participation and collaboration.

Class Time: 8:00 AM – 9:00 AM

Location: Emerald Room

Class Name: Dead Presidents: Honest Ways to Earn Money

Class Instructor: Vince Wilson

Class Length: 1 hour

Class Synopsis: Money is the life and blood of a paranormal researcher. A healthy paranormal organization uses resources of not only their own members but also from the community around them. Research takes not only time but also money. Join Vince Wilson as he explores both traditional and non-traditional ways that paranormal organizations can conduct fundraising and gather money for their research.

Class Time: 9:00 AM – 10:00 AM

Location: Diamond Room

Class Name: Paranormal Archeology

Class Instructor: Richard Kimmel

Class Length: 1 hour

Class Synopsis: Every item has its own energy. Perhaps it's residual or perhaps it's spiritual, Richard Kimmel explores the world of historical items with energies of some sort attached to them. Listen to his experiences with pieces of the Hindenburg, a concentration camp padlock, and even a Japanese gas mask. You can learn his technique for identifying the energies, and connecting with what may there with them in this exciting class!

Class Time: 9:00 AM – 10:00 AM

Location: Emerald Room

Class Name: Psychic Detective

Class Instructor: Karyn Reece

Class Length: 1 hour

Class Synopsis: Join television psychic Karyn Reece as she shares her experiences of working with police departments across the country to solve crimes. This informative look is a very unique one that can be used for psychics working with paranormal investigative teams. It gives a close insight into the inner workers of paranormal detective work.

Class Time: 10:00 AM – 11:00 PM

Location: Diamond Room

Class Name: Orb Photography

Class Instructor: Robbin VanPelt

Class Length: 1 hour

Class Synopsis: When is an orb not an orb? How can we as investigators tell the difference from a false positive and a real spirit orb. Are there really spirit orbs? Robbin VanPelt takes a scientific approach to the orb phenomenon. This workshop looks at the technical side of your camera equipment, how it works, and how to understand the difference.

Class Time: 10:00 AM – 11:00 AM

Location: Emerald Room

Class Name: Statistical Analysis of Hauntings

Class Instructor: Chris Bailey

Class Length: 1 hour

Class Synopsis: A new statistical analysis of hauntings has been developed by Chris Bailey. It's a way to look at the numbers involved in hauntings and track them from a pure math and science standpoint. Multiple groups are working together on this project. By providing a ranking system of paranormal activity to places investigated by these research groups, they hope to identify patterns that can be used to better understand ghost and haunting phenomenon.

Class Time: 11:00 AM - Noon

Location: Diamond Room

Class Name: Uncovering the Demonic Realm

Class Instructor: Joeseeph Cetrone/Michael Piacerri

Class Length: 1 hour

Class Synopsis: Are there truly forces at work in the world of hauntings? How do you tell the difference between a spiritual haunting and a demonic haunting? Joeseeph Cetrone and Michael Piacerri of R.I.D.D.I.A. as they dive into this area of paranormal investigation. Hear about actual cases, view evidence, and learn how you can identify a demonic haunting.

Class Time: 11:00 AM - Noon

Location: Emerald Room

Class Name: Faith vs. Science

Class Instructor: Various

Class Length: 1 hour

Class Synopsis: An open forum discussion exploring the use of faith vs science in investigation. This session is a question and answer session with instructors.
Class Time: 1:30 PM – 3:00 PM
Location: Diamond Room

Class Name: EVP: The Latest Techniques
Class Instructor: Vince Wilson
Class Length: 1 hour
Class Synopsis: Discover the latest in EVP recording techniques. What have some of the leading researchers in the country been doing to further the field and how can you do the same? Learn new techniques and tricks for improving your own recordings of electronic voice phenomenon. This goes far beyond the basics.
Class Time: 1:30 PM – 3:00 PM
Location: Emerald Room

Class Name: Advanced Infrared Techniques and Applications
Class Instructor: Jeremy Hawthorne
Class Length: approx. 1 hour
Class Synopsis: Taking the material learned in the previous lecture and showing how it is applied to Night Vision Technology and Thermal Imaging. Also a breakdown of how Night Vision and Thermal Imaging devices work. Night Vision techniques are discussed from set up to alternative ways to "get a better picture". Dos and Don'ts of Night Vision as well as things to look for and avoid, like lens flare. Overall practical applications and techniques for night vision cameras and camcorders. The different types of Thermal Imaging and what to look for when purchasing a Thermal Imaging device will be discussed as well. Handouts will be provided with definitions and terms to help students through the material covered.
Class Time: 3:00 PM – 4:00 PM
Location: Emerald Room

Class Name: Photographic Analysis
Class Instructor: Ralph Esposito
Class Length: 1 hour
Class Synopsis: One of the first manners in which many investigators begin paranormal investigation is through photography. Professional Photographer Ralph Esposito guides attendees through an introductory lesson in reviewing Spiritual Photography. This workshop examines how to tell false positives from the real phenomenon and the types of phenomenon to look for. This workshop will cover areas of photography using still and film cameras and even touch upon some video. This course provides excellent ground work for every investigator.
Class Time: 3:00 PM – 4:00 PM
Location: Diamond Room

Class Name: Ghost Science: The Latest Theories
Class Instructor: Vince Wilson
Class Length: 1 hour
Class Synopsis: The intense, but highly understandable and entertaining workshop includes information that every ghost hunter must have like the theories of paranormal energy and "memory possession", a controversial speculation that might just explain eyewitness accounts of historical hauntings. Wilson also delves into EMF meters, methods of recording the voices of the dead, cold spots and thermodynamics, dimensional hauntings, psychic testing and research, future methods of ghost research, theories on ghosts from some of the foremost authorities in the field and much more!
Class Time: 4:00 PM – 5:00 PM

Location: Diamond Room

Class Name: Improving Paranormal Investigation

Class Instructor: Group

Class Length: 1 Hour

Class Synopsis: Experts and guests put their heads together in this brainstorming forum. How do we make the science more credible? How do we conduct better paranormal investigations? What can we do to improve ourselves? The guests lead the discussion and by the end we'll come up with some very interesting concepts and directions for a whole new paranormal community.

Class Time: 4:00 PM – 5:00 PM

Location: Emerald Room

Meet The Speakers.

Vince Wilson

Vince has always been interested in science, history and the unexplained since as far back as he can remember. Lingered around in the back of his mind for over a year he was inspired to finally create a group of paranormal investigators with an invested interest in serious research into the paranormal. The inspiration came from his long time friend from high school, Renée Hamer (Colianni). Together they founded the Baltimore Society for Paranormal Research. However, that would not be enough. Vince found that there were so many organizations in Maryland that were not exactly 'professional' that it was hard to gain ground in the field. When colleagues from other states heard he was from Maryland, they generally rolled their eyes sarcastically. Maryland, one of the most haunted areas around, had a bad rep for paranormal research! That is when he founded the Maryland Paranormal Investigators Coalition. A group of groups dedicated to serious paranormal research and scientific observation. With the help of what he considers "the best bunch of paranormal researchers around" he has gotten some headway in the difficult task of turning around Maryland's reputation. Vince has lectured on ghost hunting technology and is listed as an adviser in the latest edition of Troy Taylor's Ghost Hunters Guidebook and Ed Okonowicz's Baltimore Ghosts. He also has written for Ghost Magazine.

www.ghosttech.net

Christopher Bailey

Christopher Bailey has been actively pursuing the answers to the afterlife for the past decade. As a Research and Development Director for a chemical laboratory, Christopher applies his background skills of physics, mathematics, and quantum mechanics to paranormal study in order to find answers to the "why". In 1996, Christopher co-founded Grimstone Inc., a not-for profit paranormal research organization providing the Great Lakes region with discrete, scientific investigations to homes and businesses. Today, they are a staff of 20 individuals specializing in video surveillance techniques, and infrared and ultraviolet photography.

www.Grimstone-inc.com

Derek Bartlett

Derek formed Cape And Islands Paranormal Research Society (CAIPRS) in August 2001. Derek has always been looking for answers. These questions started as early as his childhood while hearing local legends and stories of New England ghosts and shipwrecks. Since forming CAIPRS he has not only found a dedicated team who seek the same answers but has found more questions as to how and why paranormal events happen around us. Derek believes in a pragmatic, scientific approach to ghost hunting and uses both technical equipment and intensive historical research in his case work. CAIPRS, led by Mr. Bartlett is involved with cases that span from New England to New Orleans and beyond. Derek is a former US Marine and employs the concepts of both discipline and an intense theoretical approach in his work. A self described "skeptical believer" he is not out to debunk everyone else's work as much as he is to prove his own findings. He maintains a high standard for CAIPRS and feels that leading by example is not only better for his own group, but for the overall perception of paranormal research groups as a whole. Both Derek and CAIPRS are based in West Barnstable, Massachusetts.

www.caiprs.com

Tim Shaw

Reverend Timothy T. Shaw is an Ordained Spiritualist Minister, Medium, Reiki Healer - Master/Teacher level, Spiritualist Healer, Metaphysical Teacher, and Author. He is also a student of Aboriginal Spirituality, Primitive Survival Skills and has participated in several Earth Centered Gatherings and Vision Quests. While his chosen religion teaches that of the "continuance of life", he feels that we should examine carefully any evidence of paranormal activity. His motto is: "Question First, Then Believe".

Richard Kimmel

Richard is the founder of World War II Paranormal Organization and an author / writer, read by U.S. militaria collectors and internationally in more than 22 countries. He has written features for the military trader, a worldwide collector's publication. His unique use of the pendulum in the detection of latent energy, found to be present in wartime artifacts, has gained him prominence in both the militaria and paranormal communities.

<http://hometown.aol.com/ww2po/index.html>

Dwayne Claud

By day Dwayne works as a public relations specialist for regional medical firms and by night carries an avid interest in the paranormal. For the past four years, Dwayne has conducted paranormal investigations in Ohio, West Virginia, and throughout Western New York. He has an avid working knowledge of the spiritual realm, and the scientific means behind investigating the paranormal. He blends a strong mix of science with faith. Dwayne's area of interests include EVPs and Demonology.

Joe Cetrone

Bio Information Coming Soon!

www.invisible-war.org

Rich Eider

Rich has worked in the automotive field for the last 21 years. He became interested in the Paranormal field thanks to his wife Liza. One day he had accompanied her to a local cemetery where they took photographs. When they came home they were astounded to see an apparition in one of them. The next morning it had disappeared from the photograph. This intrigued Rich and this began his quest into the Paranormal with special interest in Research and Development of new techniques and equipment to improve the field of research.

www.wnyparanormal.com

Michael Puccurel

Bio information coming soon!

www.invisible-war.org

Jenni Oneski

Jenni is the President of East Coast Paranormal Society, and Co-Founder of the very successful Rochester Candlelight Ghost Walks, and various other affiliations. She have been on local and national radio (including 'X' Zone Radio Show with Rob McConnell on 03/20/06), television and has had published articles. She has an Associate's in Computer Programming and another in Business Management, a degree in Hypnotherapy from the University of Holistic Theology and currently working on her Ph. D. in Psychology.

www.paranormal-society.org

Sarah Higgins

Observation is an important part of Sarah's life. As an Ultrasonographer, she needs to rely on her instruments and intellect to gather all the correct information for a proper diagnosis. Sarah's contribution to every paranormal investigation is much like her everyday work - except she uses her senses. Sarah has a very strong level of sensitivity, bordering on the level of clairvoyance.

www.wnyparanormal.com

Ralph Esposito

Ralph is a professional photographer and videographer for almost 30 years, with degrees in Audio Visual (MCC) and Professional Photography (RIT). The paranormal has always held a great interest for me. In the past several years I began to learn more about various paranormal theories and the links to religions and the spiritual. My investigative forte is photography and video. In my research I have photographed orbs, mists and other strange phenomena. Also, I have taken video of orbs in motion, flying objects and other things which were unseen by the members of the investigation team at the time. These have served to increase my interest to seek out the reasons and truth behind the phenomena.

www.reparanormal.com

Jeremy Hawthorne

Jeremy Hawthorne developed an early interest in the paranormal and in technology. Over the years he has found numerous ways to combine the two. Jeremy always tries to stay right on top of the newest equipment and devices that are able to aid paranormal investigators. His specializes into research regarding infrared and thermal wave lengths and the technologies that utilize them. Doing so has expanded his understanding of energy, light, and the electromagnetic spectrum as a whole. Jeremy studied Parapsychology for a time at Franklin Pierce College in New Hampshire. He resides in central Illinois where he continues his research and strives to learn as much as he can as well as to educate others as often as possible. Jeremy founded The Anomalous Research Center, (www.arcparanormal.org), in August 2006 to try and unite the top researchers from all over the world under one roof. Due to his recent move, he is currently in the process of trying to finish his Bachelor's Degree. While at Franklin Pierce College he majored in Psychology with concentration in Parapsychology, and minored in Graphic Design.

Robbin VanPelt

Robbin graduated from Cecil Community College as a Professional Photographic Laboratory Technician with a background in criminal justice, computer repair, electronics, digital imaging and video work. She has been involved with the paranormal since 1984. It wasn't until she met Martha Neidert, mother to one of her best friends Katie Neidert, that things really took off for what would be a newfound career. Martha had just published her 1st book, Living With An Angel when they met. Robbin spent the next 3 years learning about the other side of life (the afterlife) through Martha, who was able to channel. When Martha passed on from cancer Robbin promised to continue on and find the answers others seek to understand about spirits. Robbin uses her skills to help The Maryland Paranormal Investigators Coalition, Baltimore Society of Paranormal Research, New Jersey Ghost Hunters Society and The American Battlefield Ghost Hunters Society. She is also Vice-President of Baltimore County Paranormal Research. Robbin was just published in her 1st book written by Lynda Lee Macken called Haunted Baltimore. She is also in Ed Okonowicz's new book Baltimore Ghost and Vince Wilson's Ghost Tech. She was in the October 2004 issue of Baltimore Magazine along with Vince Wilson and Mary DuVall. Robbin has also appeared on the local major TV stations in Baltimore and in local papers, The Beltsville News, Capital News online and What's Happening Baltimore Oct. 2005, the TV show Creepy Canada in 2005 at the USS Constellation and Edgar Allan Poe's Grave at the Westminster Catacombs. Robbin also filmed an episode for The Discovery Channel in 2006 at the Edgar Allan Poe House in Baltimore and is working on writing her own book called Havre De Grace Hauntings and Legends.

www.marylandparanormal.com

Steve Salatino

Professionally, Steve is a manager of a technical support group. He has had an evolving sensitivity over the last 6 years, which has increased his interest in the paranormal to understand this capability. Steve has experienced numerous paranormal activities on his own, including photographing potential entities.
